Approach to Human Capital

MRA, the asset management company of United Urban, supports the Group HR Strategy of the Marubeni Group, a sponsor, which is formulated based on the idea that human resources are treasures, and aims to create the "HR Ecosystem" in which each employee is encouraged to generate new values.

The key terms here are "Human Capital with High Social Value," "Diversity & Inclusion," and "Culture of Individual Development and Productivity." We aim to build the "HR Ecosystem" as a place where "Human Capital with High Social Value" creates new value, "Diversity & Inclusion" increases value creation, and "Culture of Active Participation and Connectivity" provides open innovation in order to bring together internal and external ideas.

MRA provides training programs for our employees which are designed to strengthen their capacities and abilities so that each employee can work with a high level of professional expertise.

In addition, MRA seeks to improve profitability of properties in UUR's portfolio by welcoming personnel from the Marubeni Group with broad experience and expertise in real estate investment, asset management, and finance.

Please follow the link below for the details of the Marubeni Group's HR ecosystem.

Qualifications

The management of a J-REIT requires a combined expertise developed in finance and real estate business. In order to achieve better performance, MRA has secured talents with advanced knowledge and distinguished experience in each field. Examples of the measures are as follows:

- All requisite expenses to acquire, register and update qualifications held by all employees including contract workers are covered by MRA.
- Based on an increased workload derived from United Urban's portfolio growth, the recruitment plan has been properly reviewed and developed.
- Marubeni Corporation and its group companies provide MRA with support for replenishment of human resources with abundant experience in real estate investment/leasing transaction as well as financial management.
- Professionals have been retained in the Marubeni's group companies for needs of additional staff for MRA by rotating employees between the group companies and MRA.

Performance Appraisals

MRA, the asset management company of United Urban, conducts performance appraisals and reviews for all of our employees (including contract employees, etc.).

With groundbreaking talent being sought after, MRA revamped the performance appraisal system in 2020 with the aim to further value employees who are willing to take on new challenges and to nurture such culture in addition to assess accomplishment of employees.

Once a year, each employee at MRA sets goals based on goals of the company or the relevant departments they belong to and discusses with their superiors on targets and challenges to be addressed and finalizes their goals to work on. The employees review the progress of their goals and make corrections, if necessary, through interim meetings of the subject fiscal period. At the feedback meetings in the end of the fiscal period, the employees conduct self-assessment and reporting of their annual accomplishment and receive feedback from their superiors. Also, they verify their upcoming tasks and future career path.

With meeting between superiors and employees throughout the year, the system ensures that both parties increase their level of content. MRA utilizes the system and nurtures human resource by raising awareness through self-reflection and mutual understanding.

The performance appraisal system consists of evaluation based on outcome and behavior. In the outcome evaluation, the level of achievement of set goals and its achievement processes are considered. In the behavior evaluation, actions required according to a set of responsibilities of each title are reviewed, whether the actions had been demonstrated or not. Objectivity and fairness of each evaluation are ensured by having multiple parties conduct evaluations before the evaluations are finalized.

The appraisal results determined through the set procedures are reflected in the employee's compensation. Each employee is encouraged to have their own career plan and to acquire skills that will be useful even outside the company by providing them with opportunities for various experiences including job changes within the company and transfers to the Marubeni group's companies.

Internship

MRA has been arranging opportunities for students to obtain working experience in J-REIT industry and helping them assess their aptitude and make their career plan.

In 2018, MRA accepted a student majoring business administration and offered opportunities to learn the property management as well as property inspection to acquire an external certification in retail, office, and hotel properties owned by United Urban.

Human Rights & Better Work Environment

Policy

MRA declares in our Sustainability Policy that we respect human rights, do not tolerate inhumane treatment including discrimination, forced labor and child labor, respect and mutually accept each person's individuality, and aim to establish an organization in which each individual participates and realizes his or her full potential. Also, we state that we value workers' rights and constantly strive to ensure a safe, healthy workplace and create a favorable working environment.

For more details, please refer to the [Sustainability Policy](#).

Raising Awareness of Human Rights, Labor Standards and Working Environment

To ensure our employees are fully aware of policies relating to human rights, labor standards and working environment, MRA understands that communication with our employees is indispensable. MRA therefore organizes a variety of settings of communication on a regular basis. Moreover, when new employees join the company, they always receive material and explanations relating to the rules of employment, personnel evaluation system, and benefits program. MRA also provides an environment that enables this information to be viewed at any time by posting it on our intranet.

Actions for Diversity and Inclusion, Equality of Opportunities and Eliminating Discrimination

Respecting human rights, complying with labor standards, proactively creating a favorable working environment and fulfilling our social responsibilities, MRA aims to foster diversity and inclusion, equality of opportunities and achieve the elimination of discrimination within our employees. Specifically, MRA treats employees fairly and equitably at every opportunity, including recruitment, hiring, promotion/demotion, leave privileges, vacation time, etc.

MRA is working on a work-style reform and striving to create a favorable working environment in order to prevent our employees working long hours, improve their work-life balance and encourage flexible work-style upon various personal life events.

Specifically, MRA has already introduced various systems that may be used by male and female employees alike, including a flexible working hours system, remote work system, parental leave before and after childbirth, childcare leave, nursing-care leave, family-care leave, a shortened working hours program for employees raising children or nursing family members and an annual paid vacation program that may be taken in units of hours or half-days.

To ensure the viability of these initiatives, MRA declared in February 2019 that "in order to improve our employees' work-life balance, the company as a whole works on a work-style reform, so that it would become an employee-friendly company where it is easy to take time off," and it was recognized by the Governor of Tokyo as a Tokyo Work-Style Reform Declaration Company.

Furthermore, MRA has a committee pursuing our employees' health and safety as well as a comfortable working environment and holds meetings once a month. Both the employees and the employers serve as members of the committee and strive to improve the working environment through periodical discussion on a wide range of related matters, including prevention of health problems, implementation of health education and restricting long working hours.

Support for Flexible Workstyle

Based on the results of employee satisfaction surveys and other factors, we have implemented the following improvement measures.

- Arrange infrastructure for remote working.
- Introduce the systems for flexible working, short-hour working and taking annual paid holidays by hour.
- Promote work-life balance, career continuity for all employees as well as business continuity.
- Install the focus space.
- Increase the open space and booth for chats and meetings

Focus Space

Open booths and closed booths were installed to further improve efficiency and quality of work by MRA's employees.

This has allowed employees to choose a place to work according to the assigned task, bringing about changes to their mindset.

Open booths (left) and closed booths (right)

Closed booths are used when MRA's employees working at the office have a remote meeting with clients or co-workers working from home. By bringing in their own laptop, the employees can work with two monitors in the closed booths.

Open Space and Booth for Chats and Meetings

To foster more constructive communication and collaboration, MRA has offered more meeting space options to our employees by setting up open relaxing meeting spaces, instead of traditional ones divided by partitions.

Subsidy Program for Communication Activities

All MRA employees including contract workers are eligible for the subsidy program aimed at facilitating communication among employees to foster connections, promote wellness, appreciate culture, and enhance work-life balance.

Bonus

It is fully linked to the EPU of United Urban (Exclusive of employees from Marubeni and its group companies).

Employee Stock Purchase Plan

Since 2019, all employees including contract workers are eligible to acquire a fixed amount of United Urban's units through a cumulative stock investment program provided by a brokerage company in a constant manner. As a part of welfare services, we aim to provide support on mid- to long-term asset-building and increase awareness of United Urban's growth.

fuubo

UUR is working to reduce food loss and CO₂ emissions by installing “fuubo,” unmanned vending machines at which tenant employees can buy products nearing their expiration date that were originally scheduled to be discarded.

Initiatives to Promote Sports

The sports park on the roof of the property contributes to the promotion of local sports and health through soccer and basketball as a place for interaction among people of all ages.

Sports Carnival

We co-host sports events with Kashiwa City. Small children and seniors spend meaningful time together, transcending generational barriers, through the experience of soccer, basketball, and various sports.

Tsunagu Marche - mallage Kashiwa Style -

In addition to Kashiwa City and other municipalities in Chiba Prefecture, municipalities in Saitama Prefecture joined for the first time. The facility periodically holds a resident oriented marche for the purpose of industry and tourism promotion and relationship building among residents in each municipality.

Kids SDGs Workshop

We have been holding monthly workshops since June 2022 with the expectation of fostering SDGs awareness among children.

The participants experienced making seashell wind chimes and glass lights.

Demand Responses - Rihga Royal Hotel Kokura, Aru Aru City

United Urban's Rihga Royal Hotel Kokura-ARUARU City participates in a power-saving program (demand response) provided by Enel X Japan K.K., a leading European power company.

Scheduled to be fully operated from April 2024 after the effectiveness test (implemented in December 2022).

Expected to contribute to stable energy supply in the region and enhancement of the awareness on energy saving of the demand side as well as to prevent global warming by controlling excessive power generation.

Demand Response

A program to eliminate power shortages by controlling power consumption of the demand side (tenants and owners) instead of making the supply side operate the peak power source* when power demand is at the peak.

* A power plant using 10% of the entire annual cost for maintenance and management, while its annual operation rate is less than 1%. It is also believed to cause environmental issues as it is an aging thermal power plant.

Initiatives to Prevent the Spread of COVID-19

Receiving patients and medical personnel

In response to requests from local governments to help prevent the collapse of the medical care system caused by the spread of COVID-19, hotels of Urban have been used as a lodging facility for medical treatment for the COVID-19 patients with mild or no symptoms who need medical treatment as well as medical personnel.

Offering space for inoculation of the COVID-19 vaccination

COVID-19 vaccination (workplace vaccination and large-scale vaccination at local municipalities) has been sequentially implemented from June 2021 at multiple hotels of United Urban.

Participation in Social Experiments

- United Urban cooperated in the "improvement of efficiency of intraregional movements using shared electric kickboards and resolution of last one-mile issues (Note1)," an experimental project hosted by mobby ride Inc. certified as a full support business of demonstration by Fukuoka City (Note 2).
- The driving data obtained through the experiments was submitted to the government by mobby and used to consider to formulate traffic rules for various traffic settings including electric kickboards and to realize a society where electric kickboards and people can coexist.
- United Urban offered parts of the sites of our properties to the project for free, and such sites are used as exclusive parking spaces for electric kickboards during the experiment.

Note 1: Implementation period: From April 27, 2021, to October 31, 2021. Sharing services enabling free travel among exclusive parking spaces designated by Fukuoka City was provided using the entire area of Chuo-ku and part of Minami-ku in Fukuoka City as the service area.

Note 2: Fukuoka City solicits demonstration experiment projects that lead to the resolution of social issues and the enhancement of quality of life using cutting-edge technologies including AI and IoT from all over Japan as needed, and fully supports demonstration experiments of excellent projects in the city.

Introduction of sharing services

We are providing convenience for our tenants, facility users, and the local community by providing some of the land within the premises of UUR-owned properties for the installation of shared bicycles and electric kickboard ports.

Disaster Countermeasures / BCP Support

At each of United Urban's properties, emergency power generators have been installed and emergency provisions have been stored in stages. Emergency drill is also conducted annually. As the landlord of real estate, which is believed to be a part of an infrastructure in the local community, United Urban has agreed with some municipalities to open meeting rooms at some properties in case of emergencies.

Example: SS30

Based on written agreements concerning the support for people who are unable to return home after disasters, SS30 in Sendai City provides space as a shelter. Cooperating with Sendai City, emergency food will be supplied and will become a hub for emergency communication between local citizens.
